The screenshot shows a web interface for a dental cost estimator. At the top right, there is a "Return to Portal" button. The main heading is "I need a root canal". Below this, a text box explains "Network savings: When you choose a network dentist, the fee he or she charges is usually lower than the fee of a non-network dentist, since network dentists agree to charge set fees. The network savings is the difference between the typical submitted fee and the total amount paid by you and your plan." The interface is divided into two main sections: "Typical cost of a root canal at your dentist" and "Typical cost of a root canal at nearby dentists in your network". The first section, highlighted in purple, shows a cost of \$102.50 out-of-pocket for Sepand Hokmabadi, DDS, a General Dentist at 1880 Pleasant Valley Ave, Oakland, CA 94611. The second section shows a cost of \$71.30 out-of-pocket for MICHAEL SIU, General Dentist, DPO at Western Dental Services, 11299 San Pablo Ave Ste. To the right, a sidebar displays "Current Benefits" for Melinda Szell, Delta Dental PPO, as of October 16, 2018. It shows a "Calendar Individual Maximum" of \$1298.00 of \$2000.00 available and a "Lifetime Individual Maximum" of \$1800.00 of \$1800.00 available, both with progress bars and "details" links. Below the benefits, there is a section for "About This Visit" which includes a "typical root canal fee" of \$102.50.
