Conditions Regarding the ACERA Member's Death

Please describe the conditions that caused the member's death and explain why you contend the death was service-connected—i.e., a result of injury or disease arising out of and in the course of the member's employment, and such employment contributed substantially to the member's death. Provide any information you believe is relevant and attach additional pages if necessary.

Detail Conditions

Safety Member Service-Connected Death Presumptions (Optional)

If the deceased member was not a Safety Member (e.g., sheriff's deputy or probation officer) or you are not asserting a service-connected death presumption, you may skip this question.

For deceased Safety Members who had one or more of the ailments listed below, such ailments may be presumed to be service-connected. Some of the presumptions are subject to additional conditions. Check any of the below boxes that you believe may have contributed to the member's death, so that ACERA staff can help you determine if a presumption may apply. When a presumption applies, the burden of proof shifts to the employer to prove the death was not service-connected, instead of you having the burden to prove the death was service-connected.

Mark one or more conditions you wish to assert:

- ☐ Heart trouble (presumption requires five years of ACERA or reciprocal service)
- ☐ Cancer (presumption requires five years of ACERA or reciprocal service)
- ☐ Blood-borne infectious disease
- ☐ Methicillin-resistant Staphylococcus aureus skin infection
- ☐ Exposure to a biochemical substance
- ☐ Post-traumatic stress disorder (presumption available through December 31, 2028)
- ☐ Meningitis
- ☐ A member who was employed for at least three consecutive months in a calendar year as a lifeguard and develops skin cancer may be able to take advantage of a presumption that the skin cancer was service-connected
- ☐ Tuberculosis*
- ☐ Lyme disease*
- ☐ Lower back impairments*
  - Requires five years of ACERA or reciprocal safety service
  - Only applies if the member has been required to wear a duty belt as a condition of employment
- ☐ Hernia*
- ☐ Pneumonia*

*These presumptions are available only to sheriff employees (not probation officers)

Death Certificate

Please attach a copy of the deceased ACERA member's death certificate.

Physicians Seen By Member In Five Years Before Death

Was the deceased member examined or treated by any health care provider for any reason, within the five years immediately before death?

☐ Yes ☐ No

If yes, for each such provider, please state: (a) name; (b) address; (c) the date(s) of the examination or treatment (Note: a date range is sufficient, for example: 08/16/23 – present, or 09/23 – 01/23); and (d) a description of each symptom, complaint, or other condition for which you were examined or treated. (Do not refer to medical records.) Attach additional pages if necessary to provide information for all providers.

Medical Records

Please attach relevant records that relate to your contention that the member's death is service-connected—i.e., the result of an injury or disease arising out of and in the course of the member's employment, and such employment contributed substantially to such injury or disease. These must include, at minimum:

- Copies of all medical reports and records related to the member's death.
- Copies of all medical reports and records related any condition that you contend contributed to the member's death.
- Copies of any workers' compensation documents related to the member's death or an injury or illness that you contend contributed to the member's death.

You may provide any additional records that are not described above if you believe those additional records support your application for service-connected benefits.

ACERA or the employer may request, and you must provide, any other records deemed necessary to process this application.
